

Project Status Summary

Risk Mitigation Metric for Multifactor Authentication Systems (DARPA RA-11-52)

Report Date: 18-Aug-2013
Project Manager: Bob O'Brien
Technical Lead: Stephen Paul King

Project Schedule

Overall Project is On Schedule.

- Sprint 3 began on schedule on Monday, 12-August; scheduled to finish on Sunday, 28-Aug

Project Budget

Project is on budget:

- Invoice 003 (Milestone 3) for \$12,005 was submitted on 29-July-13.
- Invoice 004 (Milestone 4) for \$12,070 was submitted on 12-Aug-13
- Invoice being prepared for lease of AWS Virtual Machine environment for formal testing and demonstration.

Risks and Issues

Risks and Issues were last reviewed by the Project Team on 18-Aug-2013.

There are no Risks at this time that require particular attention. There are no Issues to be followed.

Overall Project Health

Project is healthy. No issues at present, and none foreseen.

Additional Comments

Sprint 3 is in progress. The objective for Sprint 3 is to replace all “stubs” and essentially have a working bench – missing only the ability to multiplex test cases as we eventually intend to do.

The AWS-hosted test environment is up and Sprint 1 and Sprint 2 products are available there.

The Github environment is also implemented and code from Sprint 1 and 2 has been archives. (This includes Sprint 2 MrE code, but not Adom’s R scripts yet.)
