Issue ID	Disruption Potential	Issue Score	Last Reviewed	Issue Status	Issue Short Name	Issue Description	Mitigation Strategy
I2	Significant	25	25-Aug-13	Closed / Resolved	Logitech Cameras do not "cross over" to remote server system	The Bendh running on our AWS test system cannot "see" Logitech cameras on remote workstations -- and most PSS people are using Logitech cameras. (Only "true plug and play" devices bridge.)	FabulaTech products (one for camera, one for microphone) resolve the issue.
I1	Minimal	1	28-Jul-13	Closed / Resolved	Development team geography	Development Team distribution across multiple time zones makes communication planning difficult	Commuication Plan is being developed that will allow for "disconnected" standup meetings as required where significant timezone differences exist. (Project Manager will facilitate and ensure all team members are up to date about all issues.
